

VINCENT YBANEZ

<https://dev.vincentybanez.com> | dev@vincentybanez.com | 514-430-8008

Full-Stack Software Developer with 5+ years of experience building scalable, high-performance web and mobile applications using modern front-end frameworks (React, Next.js, Vue.js), TypeScript, and API-driven architectures. Proven at shipping user-centric, performance-optimized products, integrating third-party services and e-commerce platforms, and collaborating closely with design and product teams. Fast adopter of AI-assisted development workflows and modern tooling to deliver maintainable, production-ready solutions in both startup and enterprise environments.

SKILLS

- **Frontend & UI:** React, Next.js, Vue, SolidJS, Vite, TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, Sass
- **Mobile Development:** React Native, Ionic Typescript, Xcode, Android Studio, Electron, Nativewind
- **Backend & APIs:** Node.js, Express, RESTful APIs, PostgreSQL, Firebase, AWS, Google Cloud Platform
- **Platforms & CMS:** Shopify (Liquid), WordPress, Squarespace, Headless CMS
- **AI-Assisted & Dev Tooling:** GitHub, Gitlab, IntelliJ Idea, VS Code, Basecamp, Asana, Jira
- **Software & Design:** Adobe Suite (PS, LR, AE, AP, ME), Figma

PROFESSIONAL EXPERIENCE

Web Application Developer

York and Chapel Design, Inc.-Burnaby, BC

September 2023 to February 2026

- Build dynamic, high-performance web applications using React TS, React Native, Ionic TS and Vue.js, delivering interactive and intuitive user experiences.
- Develop cross-platform mobile applications, ensuring smooth, consistent functionality across devices.
- Maintain, refactor, and enhance legacy codebases, improving stability, performance, and long-term maintainability.
- Develop and customize WordPress and Shopify websites tailored to client requirements and brand identity.
- Create, configure, and optimize e-commerce stores on Shopify and SquareSpace to improve conversions and usability.
- Implement responsive, visually polished UI designs, elevating accessibility and overall user experience.
- Collaborate closely with designers, product teams, and backend developers to deliver cohesive, high-quality solutions.
